PORTION OF THE CUBAN COAST WHERE THE AMERICAN ARMY AND NAVY ARE COOPERATING AGAINST SPAIN. (Drawn from the official map in use by the United States government.)

Reports as to the number of ships seen conflict. A lieutenant who was seen after midnight said that he had been informed that a Spanish battle ship, two cruisers and a torpedo boat had been caught under the searchlight of Cape Henry steaming from a northerly direction.

As soon as it was reported that the enemy's war ships had been sighted there was great activity at the fort. The big search light began to sweep the bay and signals were flashed to the cruiser Minneapolis, auxiliary cruiser Dixie, and dynamite cruiser Buffalo, which are anchored off Old Point. Quarters were sounded and the crews hastily prepared the ships for action.

The gunners took positions at their posts, where they were ordered to remain during the night. The ships' search lights were kept playing on the waters. In the fort ammunition was hurried to the big guns and the troops ordered to their posts. Some of the officers were with their families at the hotels and buglers were dispatched for them. The men scurried out of the hotels half dressed and hastened to the fort. In the camp of the Maryland troops orders were given for the men to sleep in their clothes with their guns close by.

A dispatch that came from Washington stating that one of the vessels seen was probably a German freighter, had a tendency to allay the excitement among the guests at the hotels, but the officers did not relax their vigilance. WASHINGTON, June 11.—The following special from Old Point direct has been received from private sources: Fort Monroe, Va., June 11.—Friday evening a report received here from Cape Henry that a Spanish battle ship, two cruisers and a torpedo boat were seen lurking outside the cape, caused considerable activity at the forts and Friday night the troops are sleeping by their guns and the search lights of the cruiser Minneapolis, an auxiliary cruiser and one at the fort are sweeping the waters in search of the enemy. All the officers from the hotels were called to their posts Friday night. Considerable excitement ensued among the civilians and some uneasiness was apparent among the guests at the hotels. At 2:30 a. m. there were no new developments.

The Monterey at San Diego. SAN DIEGO, Cal., June 11.—The U. S. S. Monterey and her coal consort, the Brutus, supposed to be speeding on their way toward Honolulu and Manila, were sighted at noon Friday steaming south toward San Diego at a good rate of speed, the Monterey leading. They arrived off the harbor mouth at 3 p. m. The officers say they simply came here to coal and water, and will leave for Honolulu Saturday afternoon.

of the expedition, which is expected to leave Saturday, will be followed early next week by the remainder, so that by the fourth of July the entire expedition may be either landed or in readiness to land near Manila.

Nitro-Glycerine Explosion. BAY CITY, Mich., June 11.—Fifteen hundred pounds of nitro-glycerine, which was being prepared for manufacture into dynamite in the factory of H. H. Thomas, four miles north of here, exploded Friday afternoon and damaged the plant considerably. At Kaw Kavin, half a mile from the explosion, windows were broken and considerable damage was done. This is the fourth time the works have suffered from an explosion. Fortunately Friday all the employees in the building escaped with their lives. The loss is unknown at present.

Baiguiri Bombed. HAVANA, June 11.—Several American war ships Friday bombarded Baiguiri some distance east of Aguadores, and near the railway line to Santiago de Cuba. Official advices from Santiago say that the bombardment "caused no damage." Baiguiri is a mining locality and some of the mines are under American control. At the palace it is denied that there has been any bombardment of the Santiago fortifications Friday.

Wife-Murderer Hanged. GRANITE PASS, Ore., June 11.—Charles Fiester, the wife-murderer, was hanged in the courtyard here Friday afternoon. At noon the condemned man was seemingly unconscious and appeared to be dying, so a delay was granted until 1 p. m. At that hour his condition was not improved, so he was strapped to a board and carried to the scaffold and executed.

Fireman Shot By Train Bandits. AUSTIN, Tex., June 11.—The through mail and express train of the Santa Fe railroad was held up by four bandits Thursday night near Coleman junction on the Lampasas division, and it is believed considerable booty was secured. The fireman offered resistance and was shot by the highwaymen. He died Friday night.

Declines to Initiate Mediation. VIENNA, June 11.—The government has declined to initiate mediation between the United States and Spain, as it wishes to avoid the appearance of making intervention which seems only a dynastic action in the interest of the queen regent, which, perhaps, might give fatal offense.

No Additional War News. PORT AU PRINCE, June 11.—No further news has been received from the scene of hostilities.

St. Thomas, W. I., June 11.—No additional war news was received Friday evening.

Florida and Cuba with a view of intercepting the troop transports. The navy department has not given serious credit to these reports, yet they were more or less circumstantial. In order to avoid the slightest possibility of a dash by some Spanish ships against the troop transports, this new fleet of 16 war ships was determined upon. Whether it was ordered from Washington or was due to the precautionary measures of the officials in command in the south is not disclosed. It is known only that Commodore Remy, commander of the naval base at Key West, has brought together this powerful fleet of convoys. It is strong enough both in numbers of ships, of individual ships and armament, to cope with any Spanish warship that might be at large in the West Indies, and it entirely eliminates any possible danger that might attend the transporting of the army of invasion to Cuba. Capt. Taylor, who commands the Indiana, is available as commander of this squadron, although it is not disclosed definitely who will be its chief. Commodore Watson is with the blockading fleet off Havana and can not well be spared from that position, which will be maintained efficiently notwithstanding the drafts made to create this large convoy squadron. Capt. Taylor is regarded as one of the most judicious and capable officers in the service, and should the squadron command fall on him, it is felt that it will be in good hands. The Indiana will probably be the flag ship of the convoy squadron. There probably will be battle ships, but it is not deemed advisable, for prudential reasons, to give the full list of the ships in exact detail. The Indiana is considered one of the most formidable ships afloat, being regarded by naval experts as superior as a fighting machine to the ships of the Terrible class in the British navy. She has a displacement of 10,388 tons and has a main battery of 16 large guns besides many smaller rapid fire and machine guns in her secondary battery.

WASHINGTON, June 11.—At last accounts the fleet of transports containing the army of invasion for Santiago was collected just outside of Tampa waiting for a proper escort. The stories of the phantom Spanish fleet, which no subordinate officers believe at all, seem to have had weight with the president and his confidential advisers, with the result that it was determined that the transports should not even make the little journey from Tampa to Key West without abundant protection.

catastrophe and to exhaust its anger. Probably Adm. Cervera has been instructed not to telegraph bad news. It is doubtful whether Adm. Camara will go to the Philippines. His squadron is a mere remnant, but it may put to sea in order to allay nervous excitement.

The Carlists Active.

LONDON, June 11.—A rumor circulated Friday evening that a revolution had broken out in Madrid is not confirmed. But very noticeable is the movement of the Carlists, whom Don Carlos has summoned to a conference at Brussels. It is said by those who are in the entourage of the pretender that some great action is on the eve of being taken.

English Gunboats Go to Manila. LONDON, June 11.—The Hong Kong correspondent of the Daily Mail says: "The British gunboat Rattler will start for Manila Friday night, and the Zafiro is expected here with dispatches Saturday."

Mobile Quarantined. MOBILE, Ala., June 11.—The Mobile board of health quarantined against the entire gulf coast pending an investigation. There is no alarm felt here over the yellow fever at McHenry. Mobile is enjoying excellent health.

Another Bombardment. HAVANA, via London, June 11.—The American fleet bombarded the Santiago forts again Friday, the engagement lasting from 8 to 11 o'clock. No details have been received.
